Section No 16. Selection criteria

Lot No 2

Instead of:

- 3) Technical capacity of tenderer (based on i.a. items 5 and 6 of the Tender Form for a Supply Contract). The reference period which will be taken into account will be the last 3 years from submission deadline.

The selection criteria for tenderers to Lot 1 are as follows:

- the tenderer has delivered supplies under at least two (2) contracts with a cumulated budget of at least of his financial offer (total amount with VAT) in the field related to this contract (sale of special vehicles for various purposes, e.g. waste collection and transportation or equivalent) which were implemented during the reference period.

The selection criteria for tenderers to Lot 2 are as follows:

- the tenderer has delivered supplies under at least one (1) contract with a budget of at least that of his financial offer for this tender in the field related to this contract (sale of equipment for waste management) which was implemented during the reference period

This means that the contract the tenderer refers to could have been started or completed at any time during the indicated period but it does not necessarily have to be started and completed during that period, nor implemented during the entire period. Tenderers are allowed to refer either to projects completed within the reference period (although started earlier) or to projects not yet completed. In the first case the project will be considered in its whole if proper evidence of performance is provided (statement or certificate from the entity which awarded the contract, final acceptance). In case of projects still on-going only the portion satisfactorily completed during the reference period will be taken into consideration. This portion will have to be supported by documentary evidence (similarly to projects completed) also detailing its value.
